

Care Managers of the Month February 2025

This month we are recognizing two ladies who are hands on, they are the good hands people, and they work hard at keeping the peace.

Melissa Wilson

Marcia Simon

This CM loves going above and beyond for her consumers. Anything they need, she'll find a way to get it. She advocates for her consumers. She also helps coordinate our monthly produce delivery. She had a Care Giver Support Program case that the AAA didn't want to open & she helped fight to get that case opened.

Recently has been working with a consumer who is living in a home without heat. She has taken him some space heaters and is checking on him to make sure he's alive and well during this bitter cold winter.

She is... **MELISSA WILSON!**

People have been saying "How has she not been CMOM yet?" And honestly we don't know. She's so consistent. Her work is practically flawless.

If someone calls off for on call, she's one of the first to volunteer to help out. If you need suggestions for how to handle a case, she's happy to give you advice.

Her consumers love her, respect her, and rely on her because they know they're in good hands.

Is it Allstate?

No, it's **MARCIA SIMON!**
